INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
East Fallowfield Township
Chester County, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of East Fallowfield Township, Pennsylvania, as of and for the year ended December 31, 2010, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of East Fallowfield Township, Pennsylvania, as of December 31, 2010, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of pension funding progress, schedule of contributions from the employer and other contributing entities, on pages 3 through 11 and 34 through 38 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the 2010 East Fallowfield Township annual report presents our discussion and analysis of the financial performance during the fiscal year ended December 31, 2010. The inclusion of this section is in compliance with *Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued by the Governmental Accounting Standards Board (GASB). Our comments are intended to be read in conjunction with the Independent Auditor's report preceding this discussion and the financial statements, and supplementary information immediately following this section.

FINANCIAL HIGHLIGHTS

The Township's Net Assets as of December 31, 2010 totaled \$9,984,769, a decrease of \$627,481 from 2009. Net Assets were comprised of capital assets, net of depreciation, in the amount of \$8,910,336, and unrestricted current assets consisting of cash and accounts receivable, net of liabilities totaling \$1,318,242.

During 2010, the Township's total revenue was \$2,620,041 and was \$335,270 less than the prior year. Capital grants and contributions had been \$451,816 in 2009 and had decreased to only \$2,000 during 2010. A decrease in "Charges for Services" of \$167,053 was offset by an increase in tax revenues of \$226,695.

Township expenses in 2010 increased by \$292,186 from 2009. Costs increased in the areas of general government due to staff increases and the increase in health insurance costs for full time employees. Uncontrollable costs for public safety and highway maintenance increased due to the heavy snowstorms in 2010 as well as the increase in health insurance costs.

On the legally enacted budgetary basis, the Township's General Fund ended the fiscal year with a decrease in fund balance of \$434,700 compared to a decrease in fund balance of \$34,955 in 2009. The significant decrease was the result of one time revenues that were received in 2009 that did not reoccur in 2010, as well as decreases in operating revenue with accompanying increases in expenses.

OVERVIEW OF FINANCIAL STATEMENTS

Government-Wide Financial Statements report information about the Township as a whole using accounting methods similar to those used by private-sector companies. The first two statements included in Government-Wide Financial Statements are the Statement of Net Assets and the Statement of Activities. These statements provide long-term and short-term information about the Township's overall financial status.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA MANAGEMENT'S DISCUSSION AND ANALYSIS

The Statement of Net Assets includes all of the Township's assets and liabilities. The Statement of Activities reflects all of the current year's revenues and expenses regardless of when cash is received or paid. These two government-wide statements when viewed in conjunction with each other report the Township's Net Assets and how they have changed. Analyzing the difference between the Township's assets and liabilities and the resulting Net Assets provides a measure of the Township's financial health or position. Increases or decreases in the Township's net assets over time are an indication of changing financial health. The overall health of the Township, however, must consider additional non-financial factors, such as changes in the Township's earned income tax base, the adequacy of Township services, and the competence of Township employees and officials.

Our Township's Statement of Activities consist solely of governmental activities and discloses basic services, such as general government (administration), public safety, code enforcement, public works, and cultural and recreation. Earned income taxes, grants, and charges for municipal services finance most of the Township's activities.

Fund Level Financial Statements

Fund Level Financial Statements focus on individual segments of the Township's operations and offer greater detail than Government-Wide Financial Statements. These financial statements include activities from two types of funds: Government Funds and Agency Funds.

Most of the Township's activities are reported in Governmental Funds. Governmental Funds statements report the sources for financing the Township's general services for the short-term, and services that will remain to be funded by future spending. Governmental Funds are reported using a modified accrual accounting method which measures cash and all other financial assets that can readily be converted to cash. The focus of Government Funds is to account for changes in the Township's financial position. Accordingly, Governmental Fund information assists the reader in determining whether there are greater or fewer financial resources available in the near future to finance Township programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and reported in Governmental Funds is reconciled in the financial statements and accompanying Notes to Financial Statements are included to offer explanations for some of the information and provide more detailed data.

Agency Fund statements disclose activities when the Township serves as an Agent for escrowed funds. Agency Funds are custodial in nature. Since assets in the fund are restricted from use to finance Township operations, Agency Fund activity is reported in a separate statement entitled, Statement of Assets and Liabilities – Agency Fund.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS

**FINANCIAL ANALYSIS OF THE TOWNSHIP – GOVERNMENT-WIDE
STATEMENTS**

The Township's total net assets were \$9,984,769 and \$10,612,250 on December 31, 2010 and 2009, respectively. The decrease of \$627,481 was comprised of a decrease of \$546,851 in current and other assets and an increase of \$69,567 in current and non-current liabilities. The decrease in capital assets was due to the annual depreciation of the capital assets which was greater than the cost of new additions. The following table presents condensed financial information comparing Net Assets as of December 31, 2010 and 2009:

Net Assets December 31,		
	Governmental Activities	
	<u>2010</u>	<u>2009</u>
Assets		
Current and other assets	\$ 1,318,242	\$ 1,865,093
Capital assets, net	<u>8,910,336</u>	<u>8,921,399</u>
Total assets	<u>10,228,578</u>	<u>10,786,492</u>
Liabilities		
Current and other liabilities	227,004	161,617
Noncurrent liabilities	<u>16,805</u>	<u>12,625</u>
Total liabilities	<u>243,809</u>	<u>174,242</u>
Net Assets		
Invested in capital assets	8,910,336	8,921,399
Unrestricted	<u>1,074,433</u>	<u>1,690,851</u>
Total net assets	<u>\$ 9,984,769</u>	<u>\$ 10,612,250</u>

The results of this year's operations as a whole are reported in the Statement of Activities. Specific charges, grants, revenues, and subsidies that directly relate to specific expense categories are represented to determine the final amount of the Township's activities that are supported by other general revenues. The Township's most significant revenues are generally from earned income taxes, real estate transfer taxes, and trash fees.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS

The following table presents financial information extracted and condensed from the Statement of Activities to facilitate a comparison of total revenue from governmental activities from 2010 to 2009:

Revenues, Expenses, and Changes in Net Assets For the Years Ended December 31,		
	<u>Governmental Activities</u> <u>2010</u>	<u>2009</u>
Revenues		
Program revenues:		
Charges for services	\$ 942,887	\$ 1,109,940
Operating grants and contributions	381,533	338,103
Capital grants and contributions	2,000	451,816
General revenues:		
Taxes	1,157,204	930,509
Other revenue	<u>136,417</u>	<u>124,943</u>
Total revenues	<u>2,620,041</u>	<u>2,955,311</u>
Expenses		
General government	567,001	446,515
Public safety	1,131,014	1,064,164
Codes	30,097	44,192
Public works – sanitation	576,661	565,851
Public works – highways	681,977	577,268
Culture and recreation	33,259	27,949
Unallocated depreciation	<u>227,513</u>	<u>229,397</u>
Total expenses	<u>3,247,522</u>	<u>2,955,336</u>
 Change in net assets	 \$ <u>(627,481)</u>	 \$ <u>(25)</u>

During 2010, the Township's total revenue was \$2,620,041 and decreased by \$335,270 from the prior year. This decrease was due primarily to the decrease in grants that were received during 2009 for the Community Park. Tax revenues increased by \$226,695 in 2010 but were offset by a decrease in charges for services of \$167,053 mainly due to a decrease in building and related permits.

Township expenses during 2010 increased \$292,186 from 2009. General government expenses increased from the prior year by \$120,486 primarily due to the hiring of a full-time Township Manager and Treasurer in 2010. Also, expenses for the Public Works Department increased due to the addition of one full-time employee late in 2009.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS

FINANCIAL ANALYSIS OF THE TOWNSHIP – GOVERNMENTAL FUNDS

Most Township activities are reported in Governmental Funds. Governmental Funds are reported using the modified accrual accounting method which measures cash and all other financial assets that can readily be converted to cash. The Township's Governmental Funds include the General Fund, Capital Projects Fund, Liquid Fuels Fund, and Parks and Recreation Fund.

General Fund

The General Fund is the principal operating fund of the Township. On the legally enacted budgetary basis, the General Fund ended the fiscal year with a decrease in fund balance of \$434,700 compared to a decrease in fund balance of \$34,955 in 2009. The significant decrease in fund balance in 2010 is due to a decrease in revenues of \$77,529, an increase in expenditures of \$193,055 and a decrease in other financing sources from the prior year of \$129,161.

Revenues decreased primarily from a decrease in building, road and commercial permits of \$198,266, and a decrease in real estate transfer and income taxes of \$64,949. These decreases were offset by an increase in trash fees of \$95,290 and intergovernmental revenues of \$49,479 due to one-time revenues for the 2010 snowstorms. Also, during 2009 the Township received funding for the Community Park which was not duplicated in 2010.

Expenditures increased by \$193,055 in 2010 primarily due to the addition of full time employees in both General Government and Public Works.

The following table compares the actual revenues and expenditures for 2010 and 2009:

Comparison of Revenues, Expenditures, and Changes in Net Assets
General Fund
For the Years Ended December 31,

	<u>2010</u>	<u>2009</u>	<u>Variance</u>

Refund of prior year expenditures	-	187,500	(187,500)
Transfer of excess refund	-	(58,339)	58,339
Total other financing sources	<u>-</u>	<u>129,161</u>	<u>(129,161)</u>
Net change in fund balance	(434,700)	(34,955)	<u>\$ (399,745)</u>
Fund balance, beginning	<u>304,165</u>	<u>339,120</u>	
Fund balance, ending	<u>\$ (130,535)</u>	<u>\$ 304,165</u>	

Annual budgeting for the General Fund is based on four primary sources of revenue. The following chart illustrates each sources contribution by percentage. Earned income taxes and real estate transfer taxes contributed 44% of the General Fund's total revenues. Fees generated from charges for services contributed 40%. These two sources combined to contribute 84% of the General Fund's revenue. Revenues from "other" sources total 8% and included interest earnings, inter-fund transfers, and fines. Intergovernmental revenues accounted for the remaining 9% of the General fund's revenue.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS

General Fund Budgeted Revenues

The 2010 revenues from taxes were \$49,598 higher than budgeted due to higher earned income taxes than budgeted. Charges for services was \$6,455 less than budgeted overall, but consisted of an increase of \$112,619 of trash fee revenue higher than budgeted and \$126,232 of building and commercial permits lower than budgeted. The other revenues were relatively consistent with the overall budget projections.

General Fund Budgeted Expenditures

Departmental expenditures were over budget for several work areas in 2010. General Government and Public Works were over budget by \$154,426 and \$37,678, respectively. Final expenditures were \$ 180,848 over the budget. Overall, the result of last year's operations was a decrease in fund balance of \$434,700.

Liquid Fuels Fund

Under the Liquid Fuels Tax Act 655, the Township receives a subsidy from the Commonwealth of Pennsylvania for the maintenance of roads. Funds received are deposited into the Township's Liquid Fuels Fund and restricted from use in other Township activities. Costs subsidized include acquisition of vehicles and equipment, maintenance of vehicles and equipment, fuel, and supplies for snow removal. During 2010, subsidies received totaled \$183,493. Liquid Fuels Fund expenses totaled \$252,957. As of December 31, 2010, the Liquid Fuels Fund had a fund balance of \$172,159.

Capital Projects Fund

The Township maintains a Capital Projects Fund for the purpose of funding acquisitions of capital assets. During 2010, there was nominal activity in the Capital Projects Fund, exclusive of earned interest in the amount of \$1,166. As of December 31, 2010, the fund balance of the Capital Projects Fund amounted to \$510,980.

Parks and Recreation Fund

The Township maintains a Parks and Recreation Fund to restrict certain revenues for the sole use of improving and enhancing public parks. The primary sources of revenue for the Parks and Recreation Fund are grants, contributions, and proceeds from developers. Funding from developers occurs when the developer, who is obligated to comply with the Township ordinances and include recreation areas and facilities as a part of the land development plan, opts to, provide "in lieu of" funds to be used by the Township for alternate recreation facilities

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA MANAGEMENT'S DISCUSSION AND ANALYSIS

CAPITAL ASSETS

As of December 31, 2010, the Township had \$8,910,336 of value in a broad range of Capital Assets, including land, buildings and furniture, equipment and infrastructure. This amount represents a net decrease of \$11,063 in value from 2009 that is attributed to capital additions of \$216,450 and depreciation expense of \$227,513.

The following schedule delineates the ending value of Capital Assets for the period ending December 31, 2010 and changes in each capital asset category:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Capital assets

Capital assets, net	<u>\$ 8,921,399</u>	<u>\$ (11,063)</u>	<u>\$ -</u>	<u>\$ 8,910,336</u>

THE TOWNSHIP'S FUTURE

The economy remains stagnant with low growth in jobs. Revenues were higher than budgeted but lower than during 2009. The Township's Fund Balance decreased by \$434,700 in 2010. Interest rates are low and building in the Township has come to a halt.

In December 2007, the country began experiencing the longest recession since World War II. While most recessions last a year, it was not until September 19, 2010, that the National Bureau of Economic Research (NBER) advised that the recession had ended. Many economists, however, cautioned that the recovery would be slow and extend for many years. In September 2010, Federal Reserve Chair Bernanke advised that the annual core inflation rate (which excludes the volatile energy and food costs) increased by only .8%. This was the lowest 12-month increase since March 1961. He warned of the possibility of deflation with a cycle of slow growth, stagnant falling prices and high unemployment. A recent report released by the Center on Budget and Policy Priorities stated that, "At least 46 states struggled to close shortfalls

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA MANAGEMENT'S DISCUSSION AND ANALYSIS

when adopting budgets for the current fiscal year" (years beginning July 1, 2010). The report noted that states faced sharply constrained budgets in 2011 and that most states balanced the budget gaps with a combination of spending cuts and revenue increases. Governor Rendell's Executive Budget Overview for the 2011 Budget, for the Commonwealth of Pennsylvania advised that Pennsylvania's future economic performance would be largely dependent on job growth. On a positive note, Pennsylvania's job losses have been lower than the national average and decreases have been less dramatic than those experienced in surrounding states of New Jersey, Delaware, and Ohio. In addition, the Pennsylvania Department of Revenue, after many years of declining sales and use taxes, is projecting growth of 6% in 2010-2011 based on higher projected consumer spending.

It is evident that East Fallowfield Township will face financial challenges in the upcoming years. Our current revenues are limited to sources that are directly affected by general economic conditions. Tax revenues are driven by our residents' ability to be employed and earn taxable compensation. In 2008, The State of Pennsylvania enacted Act 32 which requires the creation of a tax collection committee to oversee the collection process in each tax collection district. Each tax collection committee is required to select one tax collection agent for their district and to oversee its operation. The Chester County Tax Collection Committee has engaged Keystone Collections to collect all earned income (EIT) and local service taxes within Chester County. The Act also requires all employers to determine each employee's municipality of residence and to remit EIT taxes to those municipalities. It is projected that this new requirement will increase EIT remittances to the majority of municipalities and school districts within Pennsylvania. East Fallowfield Township expects to see an increase in EIT collections during 2011 and in the following years due to the enactment of Act 32.

Real estate transfer taxes are driven by real estate sales. Permit fees are driven by developers' willingness to invest in land development and the availability of construction financing. Although one of our primary sources of revenue is billed trash collections services, these monies are offset by the cost incurred for trash collection contracts. The Township's financial solvency will therefore depend on creative new concepts for generating revenue while maintaining programs whose costs are escalating to ensure the safety of our residents. Future financial planning will consider the following:

- Multi-year budgeting and or projections
- Capital project funding and fixed asset replacement and long-term infrastructure improvement strategy
- Development of new funding sources from enacting safety, real estate, or other taxes; expanding public water and sewer franchise areas to attract developers, and aggressively pursuing available grants.

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2010

Total net change in fund balances – governmental funds	\$ (574,995)
--	--------------

Amounts reported for governmental activities in the
statement of activities are different because:

Capital outlays are reported in government funds
as expenditures. However, in the statement of
activities, the cost of those assets is allocated
over their estimated useful lives as
depreciation. This is the amount by which
depreciation exceeds capital outlays in the
period.

Capital outlays	\$ 216,450	
Depreciation expense	<u>(227,513)</u>	(11,063)

Because some earned income taxes will not be
collected for several months after the
Township's fiscal year ends, they are not
considered as "available" revenues in the
governmental funds. Deferred earned income
tax revenues increased by this amount this
year.

1,565

Long-term liabilities, including compensated
absences, are not due and payable and,
therefore, are not reported as liabilities in the
funds.

(4,180)

Because some trash and other fees will not be
collected for several months after the
Township's fiscal year ends, they are not
considered as "available" in the funds
statements. They have been earned and are
recorded as revenue in the entity-wide
statements..

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of East Fallowfield Township (the "Township") conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

Organization

The Township is the basic level of government which has oversight responsibility and control over all activities related to the local government in East Fallowfield Township. The Township receives funding from local and Commonwealth government sources and must comply with the requirements of these funding source entities. However, the Township is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since the Township supervisors are elected by the public and have decision making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

The Township does not have a corresponding Municipal Authority. Based on component unit evaluation, no other organization is included as a component unit of the Township's reporting entity.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the Township as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the governmental activities of the Township at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Township's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Township, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Township.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Fund Financial Statements

During the fiscal year, the Township segregates transactions related to certain Township functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Township at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major and non-major fund is presented in a separate column. Fiduciary funds are reported by type.

Fund Accounting

The accounts of the Township are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Resources are allocated to and accounted for in individual funds based on the purposes for which they are to be spent. The Township has the following fund types:

Governmental Funds: Governmental funds are those through which most governmental functions of the Township are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The Township's major governmental funds are as follows:

General Fund: The General Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund: The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Liquid Fuels Fund: The Liquid Fuels Fund, as required by state law, accounts for receipts from the State Motor License Fund (gasoline tax distribution, etc.) and the payment of allowable street and highway-related expenditures.

Parks and Recreation Fund: The Parks and Recreation Fund is used to account for financial resources to be used for the acquisition of part and recreation related expenditures.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Fiduciary Funds: Trust and Agency Funds are used to account for assets held by the Township in a trustee capacity or as an agent for individuals. Agency Funds are custodial in nature and do not involve measurement of results of operations. The Township's Agency Fund is the Escrow Fund.

Measurement Focus and Basis of Accounting

The government-wide financial statements are prepared using a flow of economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred regardless of the timing of the related cash flows. All assets and liabilities associated with the operation of the Township are included on the statement of net assets.

In the fund financial statements, all governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included in the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

The basis of accounting that is used determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting and the fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Township, available means expected to be received within sixty days of fiscal year end.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Nonexchange transactions, in which the Township receives value without directly giving equal in return, include earned income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year which the taxes are levied.

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Township must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Township on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Deferred Revenues

Deferred revenues arise when assets are received before revenue recognition criteria have been satisfied.

Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period are reported as deferred revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Date of Management's Review

Management of the Township have evaluated subsequent events through December 11, 2012, the date on which the financial statements were available to be issued.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Budgets

The Township is required by state law to adopt an annual budget for the General Fund. The budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data reflected in the financial statements.

1. Prior to November 15 of the preceding fiscal year, the Township prepares a budget for the next succeeding calendar year beginning January 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board of Supervisors is then called for the purpose of adopting the proposed budget.
3. Prior to December 31, the budget is legally enacted through passage of a resolution by the Board of Supervisors.
4. The budget must be filed with the Pennsylvania Department of Community Affairs by January 31.

Once a budget is approved, it can be amended at the Function and Fund level only by approval of a majority of the members of the Board of Supervisors. Amendments are presented at the Board at their regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end as dictated by law.

The budget is controlled by the finance officer at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board of Supervisors. Individual amendments were not material in relation to the original appropriations. All budget appropriations lapse at year end.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2010, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which the services are consumed.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Interfund Transactions

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as interfund receivables/payables. Interfund balances within the governmental activities are eliminated on the government-wide statement of net assets.

Earned Income Taxes, Real Estate Transfer Taxes, and Local Services Taxes

The Township recognizes assets from earned income taxes, real estate transfer taxes, and local services taxes when the underlying exchange transaction occurs or when resources are received, whichever is first. In the governmental fund financial statements, under the modified accrual basis of accounting, revenue is recorded when the underlying exchange occurs and when the resources are available. Revenue that is not available is deferred.

Property Tax

There have been no property taxes levied since 1996.

Compensated Absences

The Township's policy is to permit employees to accumulate sick days. Upon retirement, employees will be paid for 25% of unused sick days up to a maximum of 200 days at their current pay rate.

Capital Assets

Capital assets are reported in the governmental activities column on the government-wide statement of net assets but are not reported on the fund financial statements. Purchases of capital assets are recognized as expenditures in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market value on the date donated. The Township maintains a capitalization threshold of \$5,000. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the assets are not capitalized.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

All capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Depreciation</u>	<u>Estimated Lives</u>
Park improvements	15-40 years
Buildings and building improvements	15-40 years
Infrastructure	20-80 years
Furniture and fixtures	5-20 years
Vehicles	5-15 years
Equipment	5-20 years

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets represent the costs of capital assets net of related debt and net of accumulated depreciation. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Township or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Township's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Fund Balance Reserves

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2 CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2010, was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities				
Capital assets, net being depreciated

NOTE 3 PRIOR PERIOD RESTATEMENT

The Township restated its fund balance at December 31, 2009 to record a franchise fee receivable that was previously recorded on the cash basis. This adjustment had no impact on revenues and expenditures reported for the year ended December 31, 2010.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 4 INTERFUND RECEIVABLES AND PAYABLE

Interfund receivable and payable balances of each individual fund as of December 31, 2010 are as follows (certain amounts are netted for presentation in the fund financial statements):

	<u>Due from Other Fund</u>	<u>Due to Other Fund</u>
General Fund	\$ -	\$ 88,095
Liquid Fuels Fund	29,756	136,640
Escrow Fund	136,640	87,861
Park and Recreation Fund	<u>146,200</u>	<u>-</u>
	<u>\$ 312,596</u>	<u>\$ 312,596</u>

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTE 5 EMPLOYEE PENSION PLANS

Non-Uniform Pension Plan

The Township maintains a defined contribution plan covering substantially all full-time employees of the Township except police. The pension program is administered by the Pennsylvania Municipal Retirement System ("PMRS"). PMRS is an agent, multiple-employer system with the purpose to administer sound, cost-effective pensions for local government employees. Responsibility for the organization and administration of the system is vested in the eleven-member Pennsylvania Municipal Retirement Board. PMRS issues a separate Comprehensive Annual Financial Report ("CAFR"). A copy of the CAFR can be obtained by contacting the PMRS Accounting Office, PO Box 1165, Harrisburg, PA 17108-1165.

Contributions to the plan are at the discretion of the Board of Supervisors. In 2004, the Board established an employer contribution rate of 5.0% of the employees' salary for the non-uniform pension plan. The Township contributed \$12,278 to the plan in 2010.

Police Pension Plan

The Township sponsors a defined benefit plan for police. As of December 31, 2010, all police employees were participating in the plan. All employees are eligible to participate in the plan after six months of employment. The plan is authorized and enacted under authority of Act 205 of Pennsylvania ("the Act") and local ordinances. The plan is administered by PMRS.

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 5 EMPLOYEE PENSION PLANS (CONTINUED)

As of December 31, 2010, pension plan membership consisted of:

	Police	Non-Uniform
Covered employees	All regular, full-time sworn police officers	All regular, full-time employees, excluding sworn police officers
Number of covered active employees	7	7
Number of persons receiving benefits:		
Retired employees and beneficiaries	1	3
Terminated employees vested but not receiving benefits	0	1
Normal retirement date	After 55 th birthday and 12 years of service	Normal social security mandated age
Retirement benefit	Equal 50% of the average monthly compensation during the final 36 months of employment	Plan is defined contribution
Early retirement date	Voluntary after 20 years of service	Normal social security mandated age

Contributions and Funding Policy for Police Pension Plan

The Act requires that annual contributions be based upon the calculation of the Minimum Municipal Obligation ("MMO"). The MMO calculation is based upon the biennial actuarial valuation. The Commonwealth allocates certain funds to assist in the pension funding. Any financial requirement established by the MMO which exceeds the Commonwealth allocation must be funded by the Township or employee members.

Currently, employees covered under the Police Pension Plan are required to contribute 5% of their salaries. Administrative costs, including investment manager fees, custodial trustee fees, and actuarial fees are charged to the Plan and funded through investment earnings.

NOTE 5 EMPLOYEE PENSION PLANS (CONTINUED)

Funded Status and Funding Progress

The following is funded status information as of January 31, 2010, the most recent actuarial valuation date:

	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded (Overfunded) AAL	Funded Ratio	Covered Payroll	Unfunded (Overfunded) AAL as a % of Covered Payroll
Police	\$603,798	\$660,682	\$56,884	91.39%	\$460,707	12.35%

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTE 6 CASH

Legal and Contractual Restrictions

The Township is permitted to invest in U.S. Treasury bills, short-term obligations of the U.S. Government or its agencies, and shares of an investment company as defined, provided that the only investments of the company are in authorized investments for Township funds. The Township may also plan deposits that are insured by the Federal Deposit Insurance Corporation ("FDIC") and deposits that are collateralized on an individual or on a pooled basis in accordance with Act No. 72 of the Commonwealth of Pennsylvania, August 6, 1971.

Custodial Credit Risk – Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. At year end, the total carrying amount of the Township's checking, savings, and money market deposits was \$1,429,083 and the corresponding bank balance was \$1,573,198. Of the bank balance, \$506,567 was covered by federal depository insurance, and \$1,066,631 was collateralized through pools of securities held by the respective depository institutions.

NOTE 7 COMPENSATED ABSENCES

The following is a summary of changes in compensated absences:

<u>Balance</u> <u>January 1, 2010</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance</u> <u>December 31, 2010</u>
<u>\$ 12,625</u>	<u>\$ 4,180</u>	<u>\$ -</u>	<u>\$ 16,805</u>

NOTE 8 RISK MANAGEMENT

The Township is exposed to various risks of loss related to third-party liability claims, damages to and losses of Township-owned property, errors and omissions by public officials and injuries to employees. The Township carries various types of commercial insurance to manage certain risks of loss and has joined a municipal risk sharing pool to manage certain other risks of loss.

There were no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 9 ACCOUNTING PRONOUNCEMENTS ISSUED, NOT YET IMPLEMENTED

GASB Statement No. 54, *Fund Balance Reporting and Government Fund Type Definitions*, issued March 2009, will be effective for the Township beginning with the year ending December 31, 2011. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and clarifying the existing governmental fund type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Governments also are required to classify and report amounts in the appropriate fund balance classifications by applying their accounting policies that determine whether restricted, committed, assigned, unassigned amounts are considered to have been spent.

GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, issued December 2009, will be effective for the Township beginning with the year ending December 31, 2012. The objective of this Statement is to address issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other postemployment benefit (OPEB) plan (that is, agent employers).

EAST FALLOWFIELD TOWNSHIP, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS

**NOTE 9 ACCOUNTING PRONOUNCEMENTS ISSUED, NOT YET
IMPLEMENTED (CONTINUED)**

GASB Statement No. 59, *Financial Instruments Omnibus*, issued June 2010, will be effective for the Township beginning with the year ending December 31, 2011. The objective of this Statement is to update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice.

GASB Statement No. 67, *Financial Reporting for Pension Plans*, issued June 2012, will be effective for the Township beginning with the year ending December 31, 2014. This statement revises existing guidance for most pension plans and details note-disclosure requirements for defined benefit and defined contribution pension plans.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, issued June 2012 will be effective for the Township beginning with the year ending December 31, 2015. This statement will require governments with defined benefit pension plans to disclose a "net pension liability" on their balance sheets.

The Township's management has not yet determined the effect, if any, these Statements will have on the Township's financial statements.

NOTE 10 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of Expenditures over Appropriations

For the year ended December 31, 2010, expenditures exceeded the budget in General Fund – General Government in the amount of \$154,426, General Fund – Public Works Highways in the amount of \$37,678, General Fund – Public Works Sanitation in the amount of \$11,835, and General Fund – Culture and Recreation in the amount of \$4,939. The expenditures were funded by appropriable fund balances.

NOTE 11 CONTINGENCIES

In the normal course of business, there are various claims and suits pending against the Township. In the opinion of Township Management, the Township has adequate legal defenses or insurance coverage with respect to these claims and lawsuits and does not believe they will materially affect the Township's financial statements.

The use of grant monies is subject to compliance audits by governmental agencies. Management of the Township believes the Township is in compliance with substantially all the significant requirements of such grants.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 12 SUBSEQUENT EVENTS

Subsequent to year end, the Pennsylvania Auditor General conducted a compliance audit of the Township's Non-Uniform Pension Plan. The audit report noted that the Township had not remitted the appropriate amounts to the Non-Uniform Pension Plan during the year ended December 31, 2008 and had received an overpayment of State Aid due to incorrect certification of pension data for the year ended December 31, 2009 and 2010. During 2011, the amount of \$1,998, plus interest was paid to the Non-Uniform Pension Plan and the amounts of \$3,437 and \$3,353 were paid to the Commonwealth of Pennsylvania for the overpayment of the 2009 and 2010 State Aid, respectively.
